JOSHUA NDEULE

Software Engineer | Cybersecurity & AI Enthusiast

joshndeule@gmail.com | 0882 065 532 | Lilongwe, Malawi | Portfolio Website | LinkedIn | GitHub

SKILLS

Frontend

HTML, CSS, JavaScript, Next.js, Tailwind CSS

Backend

NestJS, PHP, Laravel, REST API, Microservices

Programming Languages

C, C++, Java, JavaScript, PHP, SQL, TypeScript

Databases

MySQL, PostgreSQL, Prisma, Neon

Other Tools

Docker, Packet Tracer, Git, GitHub

CERTIFICATIONS

- Network Security
- CCNA: Introduction to Networks
- Introduction to Cybersecurity
- CSS Essentials
- Career Essentials in Software Development

HOBBIES & INTERESTS

Watching sports and news, playing games, exploring emerging tech.

PROFILE

Final-year BSc in Information & Communication Technology student at Mzuzu University, currently interning as a Full Stack Developer at Infi-Tech. Experienced building scalable systems, websites and apps with JavaScript/TypeScript frameworks including Next.js, NestJS, Expo, PostgreSQL, Prisma and Docker, with a strong focus on security. Passionate about cybersecurity, artificial intelligence and networks, and driven by solving real-world problems through technology.

WORK EXPERIENCE

Full Stack Developer Intern, *Infi-Tech*

Present • Lilongwe, Malawi

- Design and build SaaS platforms and microservices for production use.
- Develop and maintain REST APIs powering multiple client-facing applications.
- Build scalable systems, websites and apps using Next.js, NestJS, Expo, PostgreSQL, Prisma and Docker.
- Apply secure coding practices to safeguard applications and user data.
- Collaborate with the engineering team using JavaScript, TypeScript and modern DevOps tooling.

EDUCATION

BSc in Information & Communication Technology, *Mzuzu University*

Pending graduation — fourth year completed, currently on internship • Mzuzu, Malawi

Malawi School Certificate of Education (MSCE), *Kings Foundation Secondary School*

2016 – 2021

PROJECTS

3D Learning Platform (Final Year Project)

Leverages 3D modeling — primarily in Geography and Biology — to improve educational delivery and access in Malawian secondary schools.

Feedback Portal

A multi-tenant SaaS platform for collecting customer feedback, managing support tickets and monitoring customer satisfaction — built as NestJS microservices behind an API gateway, with Next.js frontends for tenants and platform admins.

Mzuzu University ICT Weekend Timetabling System (Genetic Algorithm)

A third-year group project that automates scheduling for the Mzuzu University ICT Weekend Programme, using a Genetic Algorithm to replace manual scheduling with optimized, conflict-free timetables.
